

Things you should know about LoginMN

What is Login Minnesota?

LoginMN is the State of Minnesota's secure and centralized sign-on service that individuals use to access State of Minnesota services, programs, and applications. LoginMN grants you access to multiple government services, while keeping your information secure with multi-factor authentication (MFA) and enhanced fraud detection.

How do I create a single login?

Go to the LoginMN Home Page, (type into your URL): Login.MN.GOV

To create your personal LoginMN account, select the appropriate log in button and complete your one-time registration.

Can I still use specific state service websites?

Yes! You can still access websites and log in to their services. If that agency's services have moved to LoginMN, and you want to use those services, then you will need to create a LoginMN account.
